Location: San Francisco, CA / Open to Remote

Education

Tsinghua University · B.S. in Computer Science

Sep 2016 – Jul 2020

- GPA: 3.7/4.0
- Relevant Courses: Data Structures & Algorithms, Operating Systems, Database Systems, Machine Learning, Distributed Systems

Skills

- **Programming Languages:** Python, Java, C++, Go, JavaScript (ES6+)
- **Web Development:** React, Node.js, Express, Django, Spring Boot
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis
- **Tools/Platforms:** Docker, Kubernetes, Git, Linux, AWS, GCP
- **Core Knowledge:** Data Structures, System Design, Design Patterns, Distributed Systems

Work Experience

Software Development Engineer | ByteDance

Jul 2022 – Present | Beijing, China

- Built and optimized backend services for recommendation systems using **Go + gRPC**, handling **hundreds of millions of requests daily**.
- Improved database queries and caching with MySQL + Redis, reducing response latency by **30%**.
- Contributed to microservice architecture design and automated deployment using **Docker + Kubernetes**.
- Mentored new hires, conducted code reviews, and led technical knowledge sharing sessions.

Backend Engineer Intern | Tencent

Jul 2020 – Jun 2021 | Shenzhen, China

- Developed core features for the IM platform backend using **Java + Spring Boot**.
- Implemented RESTful APIs for user authentication, messaging, and notifications.
- Enhanced log collection and monitoring, reducing issue detection and troubleshooting time.

Projects

Distributed Web Crawler System

- Built with **Python + Scrapy + Kafka + MongoDB**, supporting **horizontal scaling**.
- Implemented distributed task queues to achieve **100k+ concurrent URL fetches**, with 1TB+ of stored data.
- Deployed via **Docker + Kubernetes**, ensuring high availability and fault tolerance.

Real-time Collaborative Editor (Google Docs Clone)

- Frontend built with **React + WebSocket**, backend with **Node.js + Redis**.
- Implemented **Operational Transformation (OT)** algorithm to resolve concurrent editing conflicts.
- Supported rich-text editing, access control, and version history rollback.

Awards & Certifications

- Silver Medal – ACM-ICPC Regional Contest
- AWS Certified Solutions Architect – Associate
- First-Class Scholarship, Tsinghua University (2018, 2019)

Additional Information

- Strong interest in **large-scale distributed systems and high-concurrency architecture**.
- Contributor to open-source projects (e.g., Apache Kafka plugins, Kubernetes tools).
- Active in tech blogging and knowledge sharing.
